Subject Re: Dimock Residential GW Site Preliminary Results

Hi Cindy,

Any update on propylene glycol runs?

Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available.

Updates:

Additional results for DEHP added to pages 9-13.
This completes all of the preliminary results for this round except for HW30-P for ethylene glycol.

Results at or above trigger levels (updated since 2/23/12):

No new results at or above trigger levels.

Report Files:

[attachment "DIMOCK Daily Report 02_27_12.docx" deleted by Richard Rupert/R3/USEPA/US]

A separate email will follow with final reports that have been placed on the R03FTPUser site in directory EPA Laboratory. For Week 1 samples, all results have been posted on R03FTPUser site except for NERL and Isotech reports.

Please contact me at 410/305-2732, or Robin Costas 410/305-2659, if you experience delivery problems with this report. A copy of this e-mail will be retained in the case file.
